## Professional Summary

I am devoted to netcentric computing and committed to achieving academic excellence as a highly motivated and goal-driven student. I have gained expertise in networking with 2 years of experience in internships, volunteer work and extracurricular activities. I work well in teams, have excellent communication skills, and have a track record of finishing projects on time. The success of a dynamic organisation in networking is what I hope to achieve by utilising my academic expertise and experience, while also developing professionally.
